

MEGALYTICS Offers Complimentary One Year Tenant Monitoring With Premium Assessment

Can you afford not to know?

Chicago IL. (March 13, 2019) – Megalytics, Inc., the leading commercial real estate risk mitigation platform, offers its 24/7 Tenant Monitoring capability for the subject tenant in any Premium Assessment ordered in the month of March 2019.

Tenant Monitoring taps data from numerous sources real-time, near-real time or whenever they become available. It automatically and continuously scans, classifies and filters volumes of data and delivers alerts, reports and notifications to our client covering all their tenants.

The automated platform gives a much needed flexibility to monitor unlimited number of tenants, generate on-demand reports for specific type of events and subscribe for push alerts for a specific event deemed relevant to the decision making process.

Portfolio Managers, Asset Managers and Property Managers, can now forgo the manual research to predict the health of their rent role.

Contact us now to order a Megalytics Premium Assessment and we will monitor your tenant for one year for FREE.

Megalytics, Inc. is a Chicago based company founded in 2014 to address the growing need for data driven solutions, business intelligence and increased transparency in the commercial real estate (CRE) industry. Megalytics provides automated due diligence and continuous underwriting for tenants, properties, locations and submarkets. Utilizing our proprietary algorithms and scoring, we use machine learning and augmented intelligence to extract data, real time, from a multitude of data sets, big and small and wide, to offer the most comprehensive, granular analysis available in the industry today with immediate turnaround. We serve the largest owners of institutional real estate and property managers, delivering data-driven analytics solutions through tech-enabled service.
